**Subpart L—Flower Garden Banks
National Marine Sanctuary**

§922.120 Boundary.

The Flower Garden Banks National Marine Sanctuary (the Sanctuary) consists of two separate areas of ocean waters over and surrounding the East and West Flower Garden Banks, and the submerged lands thereunder including the Banks, in the northwestern Gulf of Mexico. The area designated at the East Bank is located approximately 120 nautical miles (NM) south-southwest of Cameron, Louisiana, and encompasses

19.20 NM², and the area designated at the West Bank is located approximately 110 NM southeast of Galveston, Texas, and encompasses 22.50 NM². The two areas encompass a total of 41.70 NM² (143.21 square kilometers). The boundary coordinates for each area are listed in appendix A to this subpart.

§922.121 Definitions.

In addition to those definitions found at §922.3, the following definition applies to this subpart:

No-activity zone means one of the two geographic areas delineated by the Department of the Interior in stipulations for OCS lease sale 112 over and surrounding the East and West Flower Garden Banks as areas in which activities associated with exploration for, development of, or production of hydrocarbons are prohibited. The precise coordinates of these areas are provided in appendix B of this subpart. These particular coordinates define the geographic scope of the "no-activity zones" for purposes of the regulations in this subpart. These coordinates are based on the "¼ ¼ ¼" system formerly used by the Department of the Interior, a method that delineates a specific portion of a block rather than the actual underlying isobath.

§922.122 Prohibited or otherwise regulated activities.

(a) Except as specified in paragraphs (c) through (h) of this section, the following activities are prohibited and thus are unlawful for any person to conduct or to cause to be conducted:

(1) Exploring for, developing, or producing oil, gas or minerals except outside of all no-activity zones and provided all drilling cuttings and drilling fluids are shunted to the seabed through a downpipe that terminates an appropriate distance, but no more than ten meters, from the seabed.

(2)(i) Anchoring or otherwise mooring within the Sanctuary a vessel greater than 100 feet (30.48 meters) in registered length.

(ii) Anchoring a vessel of less than or equal to 100 feet (30.48 meters) in registered length within an area of the Sanctuary where a mooring buoy is available.
